

PortaSunTracker

Endless Adventures, Powered by Mother Nature.

More power makes more comfort
Up to 65% more power from your existing solar panels
Portable enough to pack with you

portasuntracker.com

For campers, RVers, and adventurers who need more power for their off-grid adventures, PortaSunTracker maximizes solar charging by automatically pointing your solar panels and tracking the Sun from horizon to horizon. More energy for you, less impact to the Earth. Good for everyone.

Features

- Horizon-to-horizon sun tracking
- Works with the solar equipment you already have: panels, battery, etc.
- Totally automated: sun-up to sun-down tracking, resets at night, resumes in morning
- Unit also powered by the sun
- Sets up and breaks down in minutes
- Silent, odorless
- Can be placed and operated away from your campsite
- Folds down to 12" x 28" for transport
- Use up to 100w panels*
- Responsibly manufactured

Benefits

- Makes most efficient use of sunlight, up to 65% more efficient than panels alone
- Get more from the panels you already have; buy only what you need
- Set it and forget it: PortaSunTracker takes care of all the details
- No additional power supply to pack or carry
- You want to be relaxing, not reconfiguring
- Enjoy the outdoors without noise and pollution
- Camp in the shade, still get maximum charging
- Easy to pack in your car or camper
- Pick the panels that best meets your energy needs
- Everyone needs a little kindness, especially Nature
